

The Ranches of Silverado

Character-rich Betula birch hardwoods continue in the kitchen where full-height maple cabinets in a complementary custom stain enhance an eye-catching selection of glass and stone mosaic tile alongside granite countertops. The island features a unique combination of granite and butcher block surfaces. For added convenience the walkthrough pantry exits to the rear hallway with garage access.

Large format ceramic tile climbs bath surrounds, enhancing the maple vanity with its dual sinks accented with faucets of brushed nickel. Terazzo countertops align a glass mosaic tile backsplash in a complementary palette of colour. The seamless glass shower features bench seating with additional mosaic appeal.
